Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 158 day(s). If the issue fee is paid on the date that is three months after t mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a ha months) after the mailing date of this notice, the Patent Term Adjustment will be 158 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date th determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retriev (PAIR) system (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul A. Levy on March 24, 2004.

2. The application has been amended as follows:

In the Claims:

In Claim 1, lines 1-2, change "A method of manufacturing a circuit device comprising the steps of:" to -- A method of manufacturing a circuit device comprising:--.

In Claim 1, lines 3-5, change "preparing a conductive foil and forming an isolation trench having a smaller thickness than that of the conductive foil on the conductive foil in a region excluding where a conductive pattern of a first layer is to be formed, thereby forming the conductive pattern of the first layer;" to -- preparing a conductive foil and forming an isolation trench having a smaller thickness than that of the conductive foil <u>in</u> the conductive foil, thereby forming <u>a</u> conductive pattern of <u>a</u> first layer;--.

In Claim 1, lines 9-12, change "mounting a circuit element onto the conductive pattern; covering the circuit element and entirely molding with an insulating resin; and removing the conductive foil in a portion where the isolation trench is not provided." to -- mounting <u>at least one</u> circuit

element onto the conductive pattern; covering the circuit element and entirely molding with an insulating resin; and removing the conductive foil in a portion where the isolation trench is not **formed**.--.

In Claim 2, lines 1-2, change "A method of manufacturing a circuit device according to claim 1 further comprising the step of:" to -- A method of manufacturing a circuit device according to claim 1 further comprising:--.

In Claim 4, lines 2-3, change "wherein the isolation trench to be selectively formed on the conductive foil is provided through chemical or physical etching." to – wherein the isolation trench **is** selectively formed **in** the conductive foil **by** chemical or physical etching.--.

In Claim 6, lines 1-2, change "wherein a via hole is formed on the interlayer insulating film through a laser." to --wherein a via hole is formed <u>in</u> the interlayer insulating film <u>by</u> a laser.--.

In Claim 11, lines 2-3, change "wherein the circuit element has either or both of a semiconductor bare chip and a chip circuit component fixed thereto." to -- wherein the circuit element comprises at least one of a semiconductor bare chip and a chip circuit component.--.

In Claim 13, lines 1-10, change "A method of manufacturing a circuit device comprising the steps of: preparing a conductive foil; providing an interlayer insulating film over the conductive foil; providing plural layers of a conductive pattern over the interlayer insulating film; mounting

Application/Control Number: 09/970,013

a circuit element onto the conductive pattern; covering the circuit element and molding a whole surface with an insulating resin; and removing the conductive foil." to --A method of manufacturing a circuit device comprising: preparing a conductive foil and forming an isolation trench in the conductive foil thereby forming a conductive pattern; providing an interlayer insulating film pattern over the conductive foil; providing plural lavers of a conductive patterns over the interlayer insulating film pattern; mounting at least one circuit element onto at least one of the plural layers of the conductive patterns; covering the circuit element and molding a whole surface with an insulating resin; and removing the conductive foil in a portion where the isolation trench is not formed.--.

In Claim 14, lines 1-4, change "A method of manufacturing a circuit device according to claim 13 further comprising the step of: isolating the insulating resin through dicing for each circuit device including the circuit element." to -- A method of manufacturing a circuit device according to claim 13 further comprising: isolating the insulating resin through dicing for each circuit device including the circuit element.--.

In Claim 22, lines 1-3, change "The method of manufacturing a circuit device according to claim 13, wherein the circuit element has either or both of a semiconductor bare chip and a chip circuit component fixed thereto." to -- The method of manufacturing a circuit device according to claim 13, wherein the circuit element <u>comprises at least one of</u> a semiconductor bare chip and a chip circuit component.--.

Allowable Subject Matter

3. Claims 1-27 are allowed over prior art of record.

Reasons for Allowance

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "removing the conductive foil in a portion where the isolation trench is not formed," as recited in claims 1 and 13 respectively.

Claims 2-12 and 14-27 are also allowed as being dependent of the allowed independent base claim.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brook Kebede whose telephone number is (571) 272-1862. The examiner can normally be reached on 8-5 Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri can be reached on (571) 272-1855. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
